

MANY CHANGES
IN WISCONSIN

Republican Gains Are Notable at Elections for Mayors and City Aldermen.

SIEBECKER IS SAFE

Prospects Are That the Constitutional Amendment Has Also Been Carried.

Milwaukee, Wis., April 8.—(Special.)—Municipal elections were held in many towns in the state Tuesday, and the republicans scored many gains in the choice of mayors and aldermen.

Returns from sections throughout the state indicate the election of Robert G. Siebecker of Madison for justice of the supreme court to succeed Charles V. Bardeen, deceased, whose term would have expired on Jan. 1 next.

There were no changes in the four circuits which elected judges. Though complete returns will not be available for two days, Judge Silverthorn of Wausau is reelected judge of the Sixteenth circuit, John Goodland of Appleton of the Tenth, James O'Neill of the Seventeenth, and O. T. Williams of Milwaukee of the Second circuit. There were hot contests for the position in every circuit except the Second, where Judge O. T. Williams was unopposed, and in the Seventeenth.

The proposed amendment to the constitution increasing the number of justices of the supreme court from five to seven appears to have carried.

Republican Gains in Waukesha, Waukesha, Wis., April 8.—(Special.)—The city went solidly republican, that party electing the entire twelve aldermen and six supervisors. There is a gain of five aldermen and three supervisors for the republicans. The constitutional amendment was carried by a plurality of 69. Judge Siebecker received a plurality for supreme judge.

Republican Victory in Kenosha, Kenosha, Wis., April 8.—(Special.)—The republicans elect the city ticket by a plurality of 193, changing both the common council and board of education to the republican column. Judge Robert Siebecker received two votes to one for associate justice.

Four for Union Labor in Beloit, Beloit, Wis., April 8.—(Special.)—Union labor elected four aldermen and independent republicans one. License was carried.

Democrats Hold Oshkosh, Oshkosh, Wis., April 8.—(Special.)—The general democratic ticket, headed by John Mulva, the incumbent, was elected by a plurality of 206. The democrats elect two justices, two of three assessors, eight of thirteen supervisors, and eight of fifteen aldermen. The common council will be democratic by 15 to 11.

Even Division in Chippewa Falls, Chippewa Falls, Wis., April 8.—(Special.)—Ten aldermen, evenly divided between democrats and republicans. Judge Siebecker carried city by large majority.

Madison for Siebecker, Madison, Wis., April 8.—(Special.)—Siebecker has received practically all of the votes for supreme court justice. The new council stands ten democrats, eight republicans, the old council being republican. The city voted in favor of a municipal lighting plant.

Franchise Aldermen Defeated, West Superior, Wis., April 8.—(Special.)—The republicans gained four in the city council. All aldermen voting for the street car franchises granted to Lowry are defeated. Reformers gain three majority on the county board. On supreme judge incomplete returns give Ruger 279; Siebecker, 144.

Republican Mayor for Racine, Racine, Wis., April 8.—(Special.)—The republicans carried the city today, electing the mayor, city clerk, justice of peace, and assessor, by pluralities ranging from 300 to 1,000. They also elected nine of the eleven aldermen. Judge Siebecker carried the city for justice of supreme court, and the amendment for two additional justices was carried by a large vote.

JIM HOWARD ON TRIAL ONCE
MORE FOR GOEBEL'S MURDER

First Points in Law Made by Defense Are Accepted by the Court.

(Special By Scripps-Meltzer.)—Frankfort, April 8.—The third trial of Jim Howard, the alleged slayer of Governor Goebel, was called this morning. The defense presented an affidavit of what evidence it would present by absent witnesses and after an objection the evidence was admitted.

A SPANISH CHURCH WAS
BLOWN UP BY DYNAMITE

Madrid Edifice Was Badly Shattered But No One Was Seriously Injured.

(Special By Scripps-Meltzer.)—Madrid, April 8.—Three dynamite bombs were exploded last evening at the Villabian church. Considerable damage was done, but no one was injured. Student disturbances continue at Saragossa, where the prefecture and Jesuit college were stoned.

HONOR SHOWN TO
GEORGE WILDER

A Former Evansville Boy Will Go to Armour Institute as a Professor.

Dr. George W. Wilder of the state University physical department and an Evansville boy, had been recently offered a lucrative position as assistant professor of electrical engineering in the Armour Institute in Chicago at a salary of \$2,000 a year. Mr. Wilder graduated from the state university with the class of 1896 and then went abroad for two years studying in the best schools of Europe. He returned to this country and later went back and completed his study receiving a doctor's degree. Since that time he has been an instructor at the state university.

His promotion to the position in the Armour Institute comes as a reward for his meritorious work in the field of research and will be learned by his many Rock County friends with much pleasure. Dr. Wilder is a bright energetic man and with added facilities for personal research his name should become famous in the world of physics.

CRUEL SLAYER OF WOMEN
MEETS DEATH ON GALLOWES

Man Claiming America as His Home Is Hung in London.

(Special By Scripps-Meltzer.)—London, April 8.—Kioshowsli, alias Chapman, the Southwark saloon-keeper who murdered by poison three women who lived with him as his wives in different parts of London, was hanged in Wandsworth jail. He was in a state of complete collapse and had to be supported by warders. He protested his innocence to the end, declared his real name was Chapman, and said he was an American by birth.

STATE NOTES

Fire destroyed the home of Mrs. J. Lidke, at New London; loss, \$1,000. Archbishop Katzer, who has been ill at Fond du Lac, expects to be in Milwaukee on Thursday.

Newton King of Crandon, who pleaded guilty to bigamy, was sentenced to two years at Waupun. About forty feet of wall of the new Burns boiler works at Depere was blown in by a southwest gale.

Fred Pauley, of Portage, arrested, charged with criminal assault by his mother, aged 83, was held in \$1,000 bail.

The Bankers' National bank of Chicago has been approved as a reserve agent for the First National bank of Rib Lake, Wis.

President Daland of Milton college announced to the students that he disapproved of the tendency to shorten the college course.

A hammer thrown while exercising at the East High school in Green Bay, struck Antoine Van Schynel, fracturing his forearm.

Alven Munson was arrested at Grantsburg, Wis., by orders from Carthage, Ill., where it is understood, he is charged with a grave crime.

James Collier, aged 50, of Caledonia, is near death as a result of a gunshot wound said to have been inflicted by his brother, aged 40.

Clarence Van Gorder and Adolph Friday were injured at the Wisconsin Central shops at Fond du Lac by heavy draft timbers falling upon them.

The mission conference of the Green Bay district of the Swedish Lutherans will be held in Marinette, Wis., next week, beginning Monday evening, in the Swedish Lutheran church.

The plant of the John Rice foundry and machine company at Stevens Point, which furnishes all gray iron castings for the Wisconsin Central railroad, was badly damaged by fire Tuesday.

Construction of the electric line from Kaukauna to Green Bay will begin inside of three weeks and the work of laying the extension of the Fox river electric line will be begun at about the same time.

An Appleton physician and a companion who went spearfishing pickering in the Wolf river marshes, near Hortonville, Sunday afternoon, were overtaken by nightfall far up in a bayou and were forced to remain out all night without food.

ITALY HAS TASTE OF A
STRIKE OF TEAMSTERS

All Traffic in the City of Rome Is Tied Up Today and Many Leave City.

(Special By Scripps-Meltzer.)—Rome, April 8.—General strike ordered today. Public conveyances idle except few trams worked by guards. Attempts made by strikers to cut gas and water supply and stop electric light plants. In one section of the city the soldiers were compelled to fire on the strikers, some of whom were injured. King, at shooting box, advised not to return to the city. Heavy exodus wealthy people foreign visitors.

INVITATION PARTY PLANNED
LAUREL LODGE NUMBER TWO

Will be Held the Fifth of May in Assembly Hall and Is Strictly Private.

Laurel Lodge No. 2 of the Degree of Honor is making elaborate preparations for a dancing party to be held the fifth of May in Assembly hall. From the present plans it would seem as though the party was to be made as big a success as possible. Smith's orchestra will furnish the music and Assembly hall will be most tastefully decorated for the occasion. Five hundred invitations will be issued.

GREEKS MAKE
MORE TROUBLE

Lowell, Mass., Has Another Riot, Due to the Foreign Laborers Getting Excited.

POLICE ARE CALLED

Labor Agitators Are Very Busy Trying to Quiet the Men and Give Efficient Aid.

(Special By Scripps-Meltzer.)—Lowell, Mass., April 8.—Early this morning word was sent to the police station that the striking Greeks were at Lawrence mill and were making decided demonstrations against the buildings. Police were at once sent to the scene.

The appearance of the large force of police it is believed is all that saved the mills from being destroyed. The Greeks have been the most rabid of all the laborers effected by the trouble.

Aid Police—The labor leaders are working with the police to prevent any outbreak and are giving efficient help in preserving peace among the employees and the mill people.

CADETS PLAN A
NOVEL PARTY

Christ Church Soldier Boys Are Arranging for a Dance Next Tuesday Night.

If ever an organization of young men made preparations to lay themselves out on an undertaking it is the Christ Church Cadets. The scheme of decorations for Assembly hall on the evening when the military ball of the cadets is to be given is now complete. Nearly every large United States flag in the city has been secured for that occasion. The task of decorating the hall is so great that the cadets expect to spend most of the day in the work. Almost before the strains of the closing waltz of the Unique club dance have died away the decorators will invade the hall, and they will keep up their labors until the time comes to don military uniform for the dance. At least, so they say.

INDEMNITY BOND MUST BE
PAID IN GOLD; NOT SILVER

China Must Pay Its Debt in Yellow Metal Instead of Silver.

(Special By Scripps-Meltzer.)—Peking, April 8.—The American financial agent at Shanghai recently submitted to the international financial commission a silver bond for the American indemnity, to be presented to the Chinese representatives for signature. The commission declined to present the silver bond, whereupon the United States financial agent forwarded it direct to the Chinese. Information received from other than American sources is to the effect that the United States has withdrawn the silver bond and is preparing to substitute on a gold basis which is practically identical with the Japanese bond. There is a strong feeling among the other legations against America breaking the concert, particularly as the Chinese admit officially, as they have always admitted privately, that the debt is on a gold basis.

ENGLISH ARMY EXPENSES
EXCEED PAY OF OFFICERS

An Income of \$500 a Year Is Necessary to Be Able to Live.

(Special By Scripps-Meltzer.)—London, April 8.—The report of the committee appointed to inquire into the expenses incurred by officers in the army and to suggest measures for bringing commissions within the reach of men of moderate means was issued tonight in a blue book.

The report shows that the average and legitimate extra expenses of officers in the infantry exceeded their pay by \$500 to \$750 annually, while cavalry officers' expenses are in excess of their pay by \$3,000 to \$3,500 annually. The committee points out that this situation is a serious drawback to securing competent officers who do not possess private means.

BLAMES HIS FRIEND FOR
LOSS OF HIS INSTRUMENTS

A. V. Lyle Misses a Dress Suit Case and His Young Friend Leaves at the Same Time.

A. V. Lyle, day operator at the Rock River interlocking signal tower in Spring Brook, is out a dress suit case and a set of telegraph instruments, and he believes that a young friend is responsible for their loss. The youth has been taking lessons in telegraphy from Lyle, and was in the tower this noon while Lyle was at dinner. When Lyle returned the contents of the suit case had been dumped on the telegraph table. Lyle believes that his pupil appropriated the missing articles, hauled the first interurban car, and departed for Beloit.

SCHOOL BOYS
GO ON STRIKE

Madison High School Pupils Have What They Term Grounds for a Grievance.

WANT SHORT DAY

Ask the Board of Education to Have Half-Day Sessions During the Summer.

(Special To The Gazette.)—Madison, Wis., April 8.—One hundred high school boys this morning went on a strike for half day sessions during the hot weather. Their demands were refused by the board of education some days ago, hence the present strike.

An Old Custom—Some years ago the board of education adopted a plan of half day sessions but this year decided to discontinue them. Many of the girls are in sympathy with the trouble, but did not go out with the boys.

Will Suspend Students—The present outlook is that all the strikers will be suspended and that the leaders will be expelled from school at once thus ending the trouble. The affair is not thought serious.

EDUCATIONAL ACT
FOR LONDON CITY

The Measure Passes Its First Reading in the House of Commons.

London, April 8.—Sir William Anson, parliamentary secretary of the board of education, introduced the London education bill today in the house of commons and it passed its first reading. The liberal leader, Sir Henry Campbell-Bannerman, characterized the bill as "contrary to common sense and public interest and an offense to those believing in popular government." It abolishes the present London school board and makes the London county council the supreme authority in both elementary and secondary education. The county council will be assisted by an educational committee, numbering ninety-seven, made up of members of the county council, borough councils, experts and women.

GERMANS ARE AGAINST THE
AMERICAN TRADE PEOPLE

German Agrarians Are to Revive Continental Customs Union League.

Berlin, April 8.—The German agrarians intend to revive the scheme for a continental customs union against American goods at the international agricultural congress, which will be held at Rome from April 13 to 17. Count von Schwerin Loewitz, a leading member of the reichstag and president of the German agricultural council, will move that the continental states make new commercial treaties among themselves, giving special favors to European goods against American goods and also British goods, which fall under the ban because of the action of Canada and the South African colonies in favoring British goods. The count's motion will provide that the importer must prove that goods are of European origin, whereupon a lower duty will be collected than would be the case were they of non-European origin. The papers here express much curiosity regarding the manner in which the congress will treat the motion.

TO REOPEN THE DREYFUS
AFFAIR ONCE MORE

Certain Phases of Celebrated Case Are to be Reviewed Very Carefully.

(Special By Scripps-Meltzer.)—Paris, April 8.—The renewal of the Dreyfus discussion in the chamber of deputies drew a large crowd to the house today. M. Jaures renewed his criticisms of the methods adopted to convict Dreyfus, asserting that after the Colonel Henry incident the war office adopted the plan of using the incriminating letter which was falsely ascribed by Emperor William. M. Jaures closed with a demand that the government conduct an administrative investigation into the letter sent by General Pellieux to M. Cavalgnae when the latter was war minister in 1898. Minister of War Andre followed and amid great applause closed his remarks with an acceptance of the proposition to institute an administrative inquiry.

PUT TRIAL OVER THE TERM
OF THE PRESENT COURT

Murderer of Gonzales Will Not be Tried at the Present Time Owing to the Absence of Witnesses.

(Special By Scripps-Meltzer.)—Columbia, April 8.—The trial of Tillman for the murder of Gonzales has been continued until the next term of court, owing to the absence of witnesses from the state.

A stallion, owned by William Markle, near La Crosse, almost killed its owner and after a prolonged fight with two other men was shot and killed.

RUGER MADE A
REMARKABLE RUN

Despite the Fact That He Had Withdrawn from the Race, He Had Many Votes.

Despite the fact that he had publicly made an announcement that he was not a candidate for election, William Ruger of this city made a most phenomenal run for the position of justice of the Supreme court. He carried Rock County by fully four hundred majority and Green Bay by almost as many. Throughout the entire state he was evidently the choice of a large portion of the voters and had been a candidate it is possible that he would have defeated Judge Siebecker for the position. It is gratifying of Janesville people to know that Mr. Ruger is so well thought of throughout the state and it must also be gratifying to Mr. Ruger himself the esteem he is shown by his home residents. Few men would have received a vote after announcing that they were not a candidate, while Mr. Ruger carried his home county and ran very well even in Milwaukee county.

MOORISH REBELS ARE DOING
VERY ACTIVE IN THE FIELD

Uncle of Sultan Said to Have Fled From Fraxana and Fight Is Reported.

(Special By Scripps-Meltzer.)—Madrid, April 8.—It is announced in a dispatch received here from Melilla, Morocco, that 4,000 insurgent Moors recently attacked and surrounded the fortress of Fraxana and that Muley Amran, the sultan's uncle, has fled to Melilla, the garrison of which has been ordered to be in readiness for all emergencies. A dispatch from Tangier says 40 men have been killed in a tribal fight in the Ujda district.

SPARKS FROM THE WIRE

As a result of the conference between the Order of Railroad Telegraphers and the Milwaukee road, station agents and operators have received an increase of about 15 per cent. and twelve hours to constitute a day's work. No operator shall receive less than \$50 a month and the overtime.

The Chicago and North-Western has purchased 300 acres of land in Chicago for the purpose of increasing its terminal facilities.

The Chicago, Milwaukee & St. Paul road has purchased forty acres at Scotland, S. D., where a large reservoir for a water supply will be erected.

The Chicago Great Western is organizing its forces for the recommendation of the work on the Omaha extension.

One thousand furniture packers in downtown wholesale and retail establishments went on a strike at Chicago for a nine-hour day and \$2.70 as a minimum scale. The packers submitted demands several weeks ago and were offered the nine hour day and a minimum wage of \$2.

The drivers employed at the Maple Hill colliery of the Philadelphia and Reading Coal and Iron company went on a strike at Mahanoy City, Pa., because the company refused them fifteen minutes at quitting time to stable the mules and 1,400 mine workers and boys are idle.

The defense in the new trial of the Howard murder case at Frankfort, Ky., withdrew its application for a change of venue and the case was called. Howard was convicted of the murder of Gov. William Goebel on his first trial over three years ago and sentenced to be hanged.

The shoe manufacturing firm of George Colburn & Co., with factories in Boston and Midway, Mass., made an assignment. The liabilities are estimated at \$300,000.

BAD CYCLONE IS FELT WAY
DOWN IN GEORGIA COUNTRY

Twelve Persons Are Reported Killed and Many More Very Badly Injured.

(Special By Scripps-Meltzer.)—Birmingham, Ala., April 8.—Cyclone passed over country mile north of Hanceville, Calumet county, this morning. Twelve people reported killed and twenty-five injured. Wires down.

TELEGRAPH CONDOLENCE
TO AMBASSADOR PORTER

His Wife's Death in Paris Brings Forth Many Messages of Sorrow.

(Special By Scripps-Meltzer.)—Paris, April 8.—Many letters and cablegrams of condolence on the sudden death of Mrs. Porter, wife of Ambassador Porter, have been received at the United States embassy. Representatives of the French government took an early occasion to express the sense of grief they felt. Foreign Minister Delcasse wrote a personal letter to General Porter. Many prominent persons called at the embassy today. The funeral will be held Thursday morning at 11 o'clock in the American church. Dr. Turber will officiate. The body will then be placed in a vault. The body reposes in the midst of flowers. It will be placed in a casket tonight.

AMSTERDAM BAKERS' STRIKE
CUTS BUT LITTLE FIGURE

Only Two of the Large Shops Closed Down—Armed Guard Patrols the Streets.

(Special By Scripps-Meltzer.)—Amsterdam, April 8.—Proposed strike of the bakers is weak affair. Only two bakeries in this city are closed. Soldiers accompany bread carts to protect their drivers. Resistances of railway officials are under guard.

BAD ACCIDENT
IN LINE CITY

An Employee of the Gas Company Run Over and Killed by a Fire Team.

DIES IN AN HOUR

George Robinson Was Riding a Bicycle, When He Was Hit by the Horses.

(Special To The Gazette.)—Beloit, Wis., April 8.—George Robinson, an employee of the gas company in this city, was fatally crushed under the wheels of the hose wagon of fire company No. 1, as it was making a practice run down Broad street this noon. Robinson died at the city hospital about an hour after the collision.

Was on Bicycle—Robinson, who for fifteen years has been in the employ of the gas company, was making his way to his home on a bicycle shortly before noon today. As he was going down Broad street the horses drawing the hose wagon came plunging along behind him. D. B. Whetstone, the driver, and Eugene Hendling, one of the hosemen, were on the seat.

At a Rapid Pace—As the hose wagon came up the street, Whetstone urged them into a more furious gallop, gradually working them out for exercise. Both of the men saw Robinson, but expected to pass him easily on the wide street. When they were almost together, Whetstone guided the team to the right, and at the same moment Robinson also veered to the right. He was trampled under the horses' feet and two side wheels passed over his body.

Died Within Hour—Robinson's body was horribly crushed and mangled, and he was unconscious. He was taken to the Strong Emergency hospital, and died there about an hour later.

Injury to Workman—Andrew Rouel, a workman in the Fairbanks, Morse, and Co.'s plant, received painful scalp wounds this morning. A brick fell from the cupola of the building in which he was working, alighting on his head. He was taken to the hospital. No serious effects are anticipated.

TO REOPEN INQUIRY
INTO BURDICK MYSTERY

District Attorney Coatsworth Is Convinced That Pennell Had a Hand in the Murder.

Buffalo, N. Y., April 8.—The inquest into the death of Arthur R. Pennell, which begins on Friday before Judge Murphy, will reopen the inquiry into the murder of Edwin L. Burdick. District Attorney Coatsworth announced that he was more interested in the murder mystery than in determining whether Pennell killed himself or not. The revelations of Pennell's alleged defalcations have convinced Mr. Coatsworth that he was a man of sufficient strength of character to have killed Burdick.

The long statement written by Pennell on the day before his death will be produced at the inquest. The authorities say they can lay their hands on it when they need it. In this statement Pennell declared he had no hand in the murder and that an unknown woman had committed the deed.

J. Frederick Pennell, administrator of Arthur Pennell's estate and brother of the dead man; Thomas Penney, attorney for the estate; and Wallace Thayer, who was Pennell's confidential friend and adviser for years, will be summoned as witnesses.

NEW CHRONOGRAPH HAS
BEEN AT LAST ACCEPTED

Attorney J. W. Bates of Beloit Returns from Milwaukee After Completing the Arrangements.

Attorney J. W. Bates of Beloit was in the city today en route from Milwaukee to his home. While in the Cream City yesterday he concluded a contract with a syndicate of capitalists whereby the introduction and adoption of the railway chronograph is assured. The stockholders of the Chronograph company are well pleased with the terms of the contract which has been made, and the successful development of the invention, of which much has been written and said in the past, is now past all doubt.

The Indiana miners' convention at Torre Haute endorsed the report of the scale committee and the annual contract will be signed at once. The 10,000 miners will probably return to work tomorrow.

Stereoscopic Lecture Tonight: At the Congregational church lectures will be given tonight and tomorrow evening. Illustrated by stereoscopic views. The subject this evening is "The Story of the Crucifixion," and on Thursday, "The Story of the Resurrection." Reproductions from the great masters will illustrate the lectures. A Layman's Lenten Sermon.

Wednesday Before Easter, Heb. IX. 16.—Where a testament is, there must also be the death of the testator. For a testament is of force after men are dead; otherwise it is of no strength at all while the testator liveth. Whereupon neither the first testament was dedicated without blood. For when Moses had spoken every precept to all the people according to the law he took the blood of calves and of goats, with water, and scarlet wool and hyssop, and sprinkled both the book and all the people, saying, This is the blood of the testament which God hath enjoined unto you. Moreover, he sprinkled with blood both the tabernacle, and all the vessels of the ministry. And almost all things are by law purged with blood; and without the shedding of blood, there is no remission. It was therefore necessary that the patterns of things in

the heavens should be purified with these; but the heavenly things themselves with better land until the ninth hour. At the ninth hour Jesus cried with a loud voice, saying, Eloi, Eloi, lama sabachthani? which is, being interpreted, My God, My God, why hast thou forsaken me? And some of them that stood by when they heard it, said behold he calleth Elias. And one of them ran and filled a sponge full of vinegar, and put it on a reed, and gave him to drink, saying, Let alone, see whether Elias will come to take him down. And Jesus cried with a loud voice, and gave up the ghost. And the veil of the temple was rent in twain from the top to the bottom. And when the centurion, which stood over against him, saw that he so cried out, and gave up the ghost, he said, Truly this man was the son of God.

Present Status of the Post Check

The Fifty-seventh Congress closed without enacting into law the post check bill, but the friends of the measure may well feel greatly encouraged at the substantial progress made within the past year. During that time, or in six months actual session in Congress, the bills were introduced, then amended and re-introduced; referred to the Post Office Committee of the House and the Senate; by them referred to the Post-Master General and the Secretary of the Treasury, considered by a commission of high officials of each department, and then sent back to Congress with a divided report.

At the opening of the second session such pressure was brought to bear again from the newspapers and business houses that the bills were taken up for serious consideration by the committees. The House Committee gave hearings on the bill, and after carefully considering the statements pro and con, voted, on January 30, to report the bill providing for \$1, \$2 and \$5 post check notes with amendments to the House with the recommendation that it be passed amended. The amendments

do not change the general principle of the plan, but tend to greater simplicity in detail, and are designed to overcome certain objections raised by Treasury officials.

The bill as amended was re-introduced by Representative Washington, Gardner of Michigan, and he and other members friendly to the measure made every effort to have the bill brought up and passed, but this was found to be impossible.

In the senate, the amended bill was introduced by Senator A. J. Beveridge, and the subcommittee of which he was chairman favored the bill, but, owing to the congested condition of business in the senate it was impossible for him to secure definite action.

We are pleased to report the above facts because they evidence an unusual degree of success in a comparatively short time, and we believe that this success has been achieved through the hearty efforts of the press throughout the country, the representations from business houses and the pressure of the people generally, who demand this additional postal convenience.

New York Stock Market.

New York:—The interview with Mr. Morgan, had a decidedly beneficial effect, not so much upon values as in fixing public attention upon a few facts that should not be overlooked when the pendulum seems inclined to swing towards unreasonable pessimism. He was perfectly correct in saying that the bulk of undigested securities were in strong hands; that there was no danger of their being dislodged; that the banks were amply protected, and that the country at large continued prosperous. It was perhaps wholesome that these facts should have the impress of authority upon them, in order to prevent exaggeration or undue apprehension from so pronounced a decline; but there the effect of the interview seemed to end, and the market while since steadier has shown no disposition to advance.

There is still another consideration affecting the future of the money market, and that is the certainty of easy conditions being short-lived because of the immense volume of new securities of a good character that would quickly be created if the money market permitted. It is known that our leading railroads contemplate the expenditure of enormous sums for improvements, which can no longer be met out of the earnings, but must be provided for through new capital creations. It is certain, that, as a result, we will have very unusual additions to the security markets during the next year or two, to say nothing of municipal, state and government issues, for important amounts that are known to be forthcoming.

What are the real reasons for present hesitation in the stock market? They are these: (1) The actual scarcity and consequent high rates of money; (2) The small returns upon good securities compared with current interest rates; (3) The large supply of undesirable securities awaiting a market; (4) Large pending issues of good securities that will be offered at the first opportunity; (5) The bitter rivalry created by such contests as the Southern-Union Pacific and other disquieting controversies. A genuine buoyant bull market seems impossible in the face of such conditions; still good rallies ought to follow the extreme declines, because the general financial condition is sound, and because many of these conditions have already been freely discounted.

While the money market is still the most immediate adverse element the hurry in call loans should soon be at an end; the demands incidental to April 1 having been met, it is satisfactory to note, without disaster, funds thus withdrawn should soon return to the banks, and from the middle of April until preparations for the crop movement are in order there should be little danger of stringency if speculation is held within ordinary bounds. It would be a mistake, however, to expect very easy rates. Regular commercial and manufacturing demands are sure to be heavy, and the banks are likely to give these first consideration. Moreover, large sums are still under the control of the strong borrowers, who are abundantly able to resist liquidation when they so desire. Consequently, apart from government operations it is quite certain that there will be a good demand for money until the close of the year.

In the face of such facts it is going to be very difficult if not impossible to create bull markets on the scale witnessed in 1900 and 1902. On the contrary, we are more likely to see a downward drift, interspersed of course, with recoveries of considerable duration. We are fully entitled to one of these recoveries now before the summer fairly begins. Stock Exchange values have undergone a very heavy shrinkage, improved conditions in the money market are in sight; the crop outlook is favorable; the farmers and industrial classes are highly prosperous; production has not yet overtaken consumption; great developments are going along in the West; railroad earnings continue heavy; our exports are large; our credit abroad is unimpaired; and everything points to continued trade activity for another season at least. The two main difficulties to further progress are the congested condition of the money and security markets and the excessive increase in the cost of production among manufacturers. If any readjustment of these conditions can be effected, we may look for uninterrupted prosperity. Some sort of readjustment is imperative, for Wall street is suffering acutely from an overdose of securities, and industry from too many strikes.

Horse Feeding Experiments

The United States department of agriculture has just issued bulletin 125, office of experiment stations, entitled A Digest of Recent Experiments on Horse Feeding, by C. F. Langworthy, Ph. D. This bulletin is a compilation which summarizes and discusses recent experimental work with horses, especially that carried on at the agricultural experiment stations in the United States. The principles of nutrition of with reference to horse feeding are discussed and figures are given showing the composition and digestibility of the coarse and concentrated feeders commonly fed to horses. Experiments are summarized which discuss the comparative value of the different feeding stuffs and special attention is paid to some, like molasses, which are becoming more important than formerly. The comparative

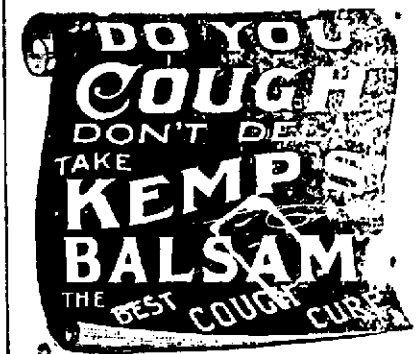

merits of different ways of preparing feed are also treated as well as the proper time of watering and the amount of water required. Something is also said of the amount of energy expended for the different kinds of external work and its measurement, the energy required for chewing and digesting food and other forms of internal muscular work, and similar topics.

Data are summarized in the form of a table, which shows the nutrients and energy furnished per 1,000 pounds, live weight, by the rations fed to American and foreign army horses, cab and bus horses, etc., as well as those supplied to the horses of express companies, fire companies, packing houses, breweries, etc., and the farm horses employed at the different experiment stations, such data having been especially compiled

for this bulletin. Average values were calculated, showing the amount of nutrients furnished to horses performing different amounts of work, when it is believed may serve as a guide in fixing up suitable rations.

The new store has already earned the reputation of having the noblest suits in town—and at the most reasonable prices. Suits range at \$15, \$18, \$22½ and \$25, and at every price the styles are exclusive, such as are approved by the world of fashion.

WAISTS...

Prepare for warmer days. The new Waists are in and on display; beautiful creations in sheer lawn waists, lined waists with drawn work, heavy mercerized waists with embroidered fronts.

EASTER MILLINERY...

It takes but a visit to the new department to convince any woman that there are advantages to be enjoyed here in the matter of Millinery that are very much to her interest. The assortments are large and the prices uniformly low for the best and choicest productions to be worn this spring. The opening of the past week was a decided success, and from now on new ideas will be added daily. In all lines there is one best—in the millinery line it is here.

WISCONSIN WEATHER FORECAST

Fair tonight and warmer tomorrow.

THE RESULT

The measure of success that came to the citizens movement yesterday determines the state of public sentiment on business reform. The campaign was conducted strictly on non-partisan lines, and not a word of politics entered into it.

The people were given their first opportunity to vote on practical questions free from political bias. The responsibility was placed upon them and they took it upon themselves to decide whether or not principles should govern. That the opportunity was appreciated, results have determined.

The opposition was called democratic but this was a label on the party, for the vote indicates that many democrats were loyal to the citizens movement.

Janesville is now in position to do something along the line of practical reform. Too much will not be expected this year, for it will require time to produce permanent results, but the wheels will be set in motion. A new system of accounting will be established, and the people will be given an opportunity to know how their money is expended. The outlook is encouraging and the people have occasion to congratulate themselves on the fact that they are finally in position to look out for their own interests.

THE TARIFF

The late utterances of President Roosevelt on the tariff question are so clear and forceful that the republican party will recognize the fact that the administration is not tinctured with free trade heresies.

Iowa has a governor who is inclined to be erratic and he has a constituency that has always been near the border line of populism. The president spoke on the tariff question at Minneapolis and the neighboring state will find no trouble in reading between the lines.

The president realizes as does every thoughtful man that the tariff question is a large question. He is also aware of the fact that a protective tariff is one of the fundamental principles of republicanism. American labor finds steady employment today at good wages because safeguarded by protection. American capital shares in the prosperity for the same reason. The interests of capital and labor are so closely identified that they can not be divorced.

The great mass of humanity are dependent upon capital which they do not possess; for employment. This may be considered a misfortune or it may be considered a blessing. The man who finds employment for either hand or brain, or both, without the annoyance of financial burdens is a care free man. If he is disposed to be thrifty and economical he may acquire a competency before middle life is reached, and if he possesses the rare gift of financial acumen, he may enter the ranks of employers if he so desires.

Protection to American industries is his best friend. It not only furnishes him employment but it makes possible a scale of wages that no other country approaches.

Combinations, frequently called trusts are the cause of the present feeling of unrest in the ranks of the republican party on the tariff question. This spirit is encouraged by the democratic party. Protection is said to be responsible for these combinations.

The president has given the question a great deal of attention and has come to the very sensible conclusion that while combinations of capital should be regulated by law, that protection is not responsible for their existence. He has also decided that while some tariff changes might be desirable that the field once entered would be difficult to control and any effort along that line would unsettle the business of the country, and result in widespread disaster.

President Roosevelt is a republican. He is not a theorist or reformer. He believes in the safe doctrine of letting well enough alone. His advice is good and it will be followed by the party.

REMARKABLE DEVELOPMENT.

The growth in the exportation of manufacturers from the United States and their distribution to countries and grand divisions are discussed in much detail in a monograph prepared by the Treasury Bureau of Statistics, for publication in the April Summary of Commerce and Finance. It shows the exportations of manufacturers in each year from 1790 to the present time and their

distribution country by country, and article by article in each year from 1892 to 1902. The exportation of manufacturers has grown from \$1,243,547 in 1790 to \$17,580,456 in 1890, \$102,556,15 in 1880, \$151,102,376 in 1890, and 403,641,901 in 1902. In 1790 manufacturers formed 6.15 per cent. of the total domestic exports; in 1850, 13.03 per cent. in 1880, 12.48 per cent. in 1890, 17.87 per cent. and in 1902, 29.77 per cent. This shows that the exports of the manufacturers are increasing much more rapidly than those of other great classes of exports. This growth in the exportation of manufacturers is especially marked in the period since 1895. In that year, 1895, the total exports of manufacturers were \$133,595,743, having gained 81 million dollars in 15 years between 1880 and 1895. In the 8 years from 1895 to 1903, the increase was 220 millions. Thus in the eight years since 1895, the increase in the exportation of manufacturers has been nearly three times as much as in the 15 years immediately prior to 1895.

The statements of distribution of the manufacturers exports also show some striking and interesting facts. They show, for example, that practically one-half of the manufacturers exported from the United States go to Europe, and that the exportation of manufactures to Europe has grown from 76 millions in 1892 to 197 million dollars in 1902. To North America other than the United States our exports of manufactures have grown from 33 millions in 1892 to 100 millions in 1902, of which 64 million dollars' value went to British North America. British territory, including both the United Kingdom and its colonies, takes one-half of the manufactures exported from the United States, or 200 millions in round numbers, of the total exportation of 400 millions in value in 1902; while the United Kingdom alone took 100 millions, or one-fourth of our total exportation of manufactures in 1902.

THE MADISON LINE

The common council on Monday night passed the franchise of the Janesville Traction company, and it is reasonable to suppose that Janesville will be favored with a line to Madison, as soon as arrangements can be made to construct it.

It is a little unfortunate that the council was called upon to decide between two companies, neither one of which would have been satisfactory to the people, as both were acting in good faith. One must necessarily be disappointed and it so happened that in this case that the disappointed company is comprised of Janesville business men who have done much for the advancement of the city.

Both companies presented strong arguments in favor of their respective interests, and on these arguments the council is supposed to have passed judgment resulting in a verdict for the Janesville Traction company.

The Gazette has no more interest in either company than has the general public. What the city needs is all the interurban lines that can be brought into it, and all of the other industries that enterprise can furnish. It may be possible for the capital that was planning for the Madison line, to find employment in some other channel equally profitable and of as much importance to the city.

Mr. Bryan is the busiest man in seven states. He may not be the next candidate for president, but he proposes to have something to say about who is. The national democratic party is badly demoralized and Mr. Bryan will manage to keep it stirred up if his health holds out.

Thousands believe we have found the secret of perpetual youth. The elixir of life in Rocky Mountain Tea makes and keeps people young. 35 cents. Smith's Pharmacy, Kodak

There is no truth in the rumor that the Municipal League has settled the civic suits pending. The executive committee of the league has no authority to settle. Any proposition for settlement will be presented to a full meeting of the League, and no such meeting has been called.

Golden Rule Jones of Toledo is a good runner. He has gained a good deal of cheap notoriety in fighting railway corporations.

All sorts of crimes are now charged to the dead man, Pennell of Buffalo. It is claimed that he was a defaulter as well as a murderer. The dead tell no tales.

The light vote yesterday indicated that Janesville has a large number of citizens who are not very deeply interested in reform.

The Biederwolf meetings resulted in a total of 225 signatures of people who subscribed to the good resolution, "I propose from this time forth to lead a Christian life."

The new common council will see to it that the street commissioner keeps his accounts so that a report will be possible whenever called for.

The strike at Lowell goes merrily on. As an all round money loser a strike caps the climax.

The Municipal League had nothing to do with the Fifield Brothers

case, which was settled out of court.

Monday was republican day in Ohio and Michigan.

Chicago also had an election.

"Progressive Janesville" failed to progress to any large extent.

PRESS COMMENT

Chicago Record-Herald: The general opinion among the ladies seems to be that Mrs. Burdick will be a real mean thing if she takes the \$25,000.

Chicago Inter-Ocean: Now that Mr. Wyndham has introduced the Irish land bill, there is no reason why King Edward should not drop in upon the Emerald Isle and have the time of his life.

Philadelphia North American: President Roosevelt wants the newspaper correspondents exclude from Yellowstone National park during his visit there. It may be necessary to extend the game laws so as to protect presidents from publicity.

Cincinnati Enquirer: No wonder promoter Wright of England, who only got into the game to the extent of \$100,000,000, was surprised at being arrested on his arrival in New York. He doubtless believed that America was the place of large things and liberal ideas.

Pittsburg Dispatch: Senator Teller's statement that Bryan will not figure as a candidate is brutally frank and no doubt perfectly true.

Atlanta Journal: Cuba is rapidly becoming Americanized. Her leading statesmen are already getting their photographs and testimonials in our patent medicine advertisements.

Chicago Chronicle: There is no other city in the world in which private business credit is higher than in this city. Thanks to the innumerable capacity of Carter H. Harrison, there is no other great city in the world of which the municipal credit is lower than that of Chicago.

MORE BUSINESS, LESS POLITICS

MOTTO OF CITIZENS' TICKET A
TELLING WAR CRY.

VINDICATION FOR THE LEAGUE

The Voters of Janesville Show Their
Desire to Adapt Change
in City Affairs.

"More Business, Less Politics," was the battle cry that spurred on the good citizenship forces yesterday to a glorious victory.

From the head of the ticket, won by A. O. Wilson by the generous plurality of 648, down to the last ward office, the party forces were down and out at every point save one; in the democratic fifth J. M. Thayer, democratic candidate for school commissioner, won by a slender margin.

Only in one place was the citizens' ticket scratched. E. H. Connell, independent candidate for alderman, and a sympathizer with the league crusade for pure business methods, was successful over E. Tracy Brown.

Won Hands Down
In the mayoralty fight Agasslaus O. Wilson gained the victory over P. J. Moutat by nearly two to one. The only backing Moutat received against the league nominee was in the democratic standby, the fifth, and even there he fell fifty votes short of a majority against his opponents.

Red hot fights were waged in the second and fifth for aldermanic honors. Schmidley's utterly successful run in the fifth was one of the features of the campaign. Connell's victory in the second was by a narrower plurality, and he failed to carry one precinct.

A. E. Badger, city clerk, C. W. Reeder, justice of the peace, and Martin Dunn, sealer of weights and measures, carried the city almost with opposition, by majorities passing the thousand mark.

Comparatively Light Vote

Nominees of the social democratic party received scattering votes. The only place where anything resembling strength was developed in the first precinct of the fourth, where the socialistic vote ran into three figures. About three hundred voted the ticket which stands on a platform of governmental ownership of public utilities.

In general a small total was cast, compared with past years. A greater number of citizens cast their ballots than in 1902, but the figures fall short of the vote in 1901.

In the judicial election Rugeur was given a majority of about five hundred—"Pretty good for a man who isn't running," as some one remarked last night. The constitutional amendment received a majority of the small vote that was cast on that question.

A Glowing Victory
At every point the result was an unqualified victory for the Municipal league, and absolutely vindicated the theory advanced by that organization at the beginning of the campaign that a municipal ticket could be elected in Janesville which would be absolutely non-partisan. In no sense was the achievement a laurel for party or party politicians. Considerations of good government and municipal purity alone influenced the result. The strenuous opposition made by the party candidates made the victory the more decisive and significant.

TO HEAVENLY REALMS

Prof. Joseph Frick
At Freeport tomorrow afternoon the funeral services of Prof. Joseph Frick of that city will be held. The pallbearers will be the sons of whom H. W. Frick of this city is one. The late Mr. Frick was eighty-three years of age, and was one of the advance guard of the German emigration to this country. For many years he was an efficient and capable teacher of German in both public and private schools. He is survived by seven sons and six daughters.

Mrs. Harvey
The funeral services of the late Mrs. Wm. B. Harvey will be held Thursday afternoon at 1:30 o'clock, from her late residence, 11 Rugeur avenue. Rev. R. C. Denison and Rev. J. T. Henderson will officiate and interment will be made at Johnstown Center.

Mrs. W. K. Knudson
Last services over the remains of Mrs. Winnie K. Knudson were conducted at 2:30 this afternoon, at her home at 351 S. River street. Rev. J. T. Henderson was the officiating clergyman. The interment was in Oak Hill cemetery.

Leona Boos
Funeral services for little Leona Boos will be held from St. Mary's church tomorrow at 10:00 o'clock.

W. H. Bonesteel is very ill at his home on Jackson street.

NOTICE TO ADVERTISERS.

On and after April first, 1903, no contract will be made for business localities. The rate for this class of advertising will be ten cents per line for each and every line of other Daily or Weekly. The Gazette adopts this policy for two reasons:
First. To improve the news columns of the paper. The first consideration of any newspaper, is the reader, and its value to the advertiser depends entirely upon its popularity with the reading public. Business localities frequently flood the composing room the last hour before the paper goes to press, and news is sacrificed to meet the demands of this class of business.
Second. The Daily Gazette is rapidly extending its circulation throughout the county, giving the Janesville merchant an opportunity to talk to the farmer as well as the city customer, six days in the week. This means faster machinery, and increased expense in producing a paper as well as increased value for advertising purposes.
The Gazette has also adopted what is known as the space rate for displaying advertising, and prices have been placed within the reach of all advertisers.
The paper has long enjoyed a liberal patronage from home merchants, and it is in position today to furnish better service than at any time in its history.

SMALL COMFORT FOR DEMOCRATS

THEIR TOTAL VOTE LESS THAN
LAST ELECTION.

WAS A REVERSAL OF FORM

Wilson's Election the Greatest Plume
for Good Government That
Is Possible.

Mr. Wilson's victory taking it all in all shows the real sentiment of the voters and taxpayers of Janesville stands. They firmly believe in the slogan, "More Business, Less Politics." And their vote yesterday showed that they had voted as they believed. They voted for the citizens' ticket candidates and the citizens' ticket was victorious.

Small Comfort
It is but small comfort for the democrats to know that their party was not at all in accord with them and their defeat was even more humiliating than it was two years ago when Mayor Victor Richardson defeated Richard Valentine, the democratic nominee, by a majority of 587.

Total Votes
The total vote cast yesterday was 2,272 while two years ago it was 2,385. One hundred and thirteen more than yesterday. Two years ago the democrats received 899 votes while yesterday they only got 676 and the social democrats but 232. With even less votes cast than hitherto and one more candidate in the field the citizens' ticket won out.

It was not a matter of personality but a matter of principle that led to the crushing defeat of the democratic party. In the fifth ward two years ago J. B. McLean was victorious over the republican candidate, Wray, by a vote of 113 majority. Yesterday the citizens' ticket nominee for alderman, Ed. J. Schmidley, defeated Dermody, the democrat, by thirty-seven plurality. It was a reversal of form not looked for by the democratic leaders, but expected by the backers of the citizens' ticket.

CURRENT NEWS NOTES

Loss in Fire: In the first ward fire yesterday afternoon, which practically demolished a barn belonging to Ed. Lawrence, at 126 Pearl street, a shed on the property of Henry Robinson was burned to the ground. Three bicycles were stored in the shed and they were a total loss.

Was a Jockey Once: W. H. Wolfson of Louisville, Ky., is registered at the Grand. He is on the road for Paul Jones rye. Before joining the ranks of the drummers he was a jockey in the blue grass land, riding some of the fastest mounts in that famous horse state. He is still almost in riding trim, weighing 102 pounds even.

License to Wed: License to marry was issued yesterday by County Clerk Starr to W. W. Watt and Miss Louisa Kent, both of this city.

Eastern Star: Eastern Star Study class will meet Thursday afternoon with Mrs. C. B. Evans at 171 Terrace street. The president requests a full meeting as urgent business will be presented.

Credit Exemption Discussed: At the regular meeting of Rock River grange, Patrons of Husbandry, which will be held at Good Templars hall tonight, the following question will be debated: "What effect will the exemption of credits from taxation have upon the farmer?"

USUAL GRIND OF THE POLICE COURT

Many Familiar Faces Appeared, and
Received the Customary
Sentences in Jail.

A quartette of drunks appeared before Judge Fifield this morning, pleaded guilty, made the usual excuses, and received sentences of varying severity. Not one of them appeared to have any direct connection with the storm and stress of the municipal election of the day before. Most of them were arrested early in the day.

Hugh Miller was taxed three days of hard labor and a fine, together with the costs. Miller's face was not unknown to the municipal court. Oscar Hofgard was also sent to the county jail, his offense being a plain case of too much drink. His face bore several fresh bruises and scars received while intoxicated. E. Hove land made an attempt to keep sober and let liquor alone and he was left off on a fine of three dollars and costs, which he paid immediately, leaving his overcoat as security while he got \$1.20 which he was short.

Swan Pearson, a tailor who has been employed in Aelterberg's shop, explained that he wanted to leave Janesville.

"I'd like to get out of town, if I could, Your Honor," he pleaded.

His Honor seemed to be willing that Hofgard should leave the city, but not until he had spent four days in the county jail, with not to exceed three days more in case he was unable to pay the fine and costs assessed him. Hofgard only came to this city about six weeks ago, and yesterday loaded up with bad booze and started a free-for-all fight in the shop where he was working. As a result of the fight he landed in the basement of the city hall.

The Top Notch

We are keeping our stock of ready to wear garments right up to the top notch of completeness. We received yesterday about 50 handsome silk and wool coats for spring wear. Exclusive styles, beautiful creations, confined to us in Janesville. Some of them are extreme novelties, rich dressy garments, but all reasonably priced. We are prepared to please almost any lady looking for a stylish spring outer wrap. We also show a fine line for misses and children. More in our large ad this evening.

Thomas Jones of Dickens, Ia., was the guest of Mr. and Mrs. Dave Brown yesterday. He is on his way from the Isle of Pines, West Indies, to his home.

Mrs. R. C. Denison went to Beloit this morning to attend the meeting of the state convention of the Wisconsin branch of the Woman's Board of Missions of the Interior. About twenty women attended the sessions of the organization yesterday, returning on the ten o'clock car in the evening, getting here at eleven.

WITH THE CLUB WOMEN

The first annual meeting of the Wisconsin first district federation of women's clubs will be held at Whitewater April 22.

Of the twenty clubs that have voted to join the new district federation, Janesville has two, the Philomathian club and the Art league.

Prof. T. L. Wright of Beloit has planned to deliver his next address before the Art league on April 10. As that date is Good Friday an effort is being made to have the lecture postponed a week. His subject is "The Olympian Games."

Cyclones will be discussed at the Saturday meeting of the Philomathian club.

A program of travel will be given at the meeting of the Eastern Star study class tomorrow afternoon.

ART EXHIBIT IS PLANNED

PUPILS OF THE LINCOLN SCHOOL
TO SHOW WORK.

IS TO BE HELD NEXT WEEK

The Exhibit Is To Be Made in the
High School, and Will Be
of Interest to All.

Teachers and pupils of the Lincoln school are combining their efforts to make the exhibition of art and musical work which is to be given at some time next week a notably successful event. The date was originally fixed for Friday, the 17th, but on account of conflicting attractions it may be postponed to the succeeding night. The high school building will be used for the entertainment and exhibition.

Art Exhibition
Work from all of the grades in the Lincoln school will be on exhibition. This will include the drawing and color work done by the children in their first art attempts. Some of the work which has been done is said to be extremely creditable, and the exhibition cannot fail to be of interest, especially to the parents and friends of the pupils whose work will be shown in public.

High School Orchestra
Music will be furnished by members of the different classes of the school. Recitations may also form a part of the program. The musical work will include singing by the pupils, and is designed to show what is being done in that branch of the work in the public schools and especially in the school which is planning this open demonstration of the achievements of its various lines of study.

Program of Evening
As the program is now outlined, the doors will be opened at seven o'clock, at which time the visitors will have an opportunity to inspect the displays, while the high school orchestra, seated in some convenient nook, discourses appropriate selections. At eight o'clock the program will begin, at which time the pupils of the Lincoln school will appear on the stage.

PICTURESQUE DAY FOR PRESIDENT

A TRUE WESTERN RECEPTION

Residents of Medora and vicinity extend heartfelt greetings to the Nation's Chief—Roosevelt is asked to Congratulate Big Minnesota Family.

Mandan, N. D., April 8.—The Philippine situation and the manner in which the policy inaugurated by President Roosevelt has restored order and benefited the nation formed the theme of President Roosevelt's principal address. This speech was delivered at Fargo at an outdoor meeting, where there was an immense crowd in spite of the snow and cold.

Recognizes Friends.
President Roosevelt traveled through familiar country and received hearty greetings wherever his train stopped. At many places he recognized old friends. At Fargo, Jamestown and Bismarck he made stops of from half an hour to an hour and discussed the conditions in the Philippines, the tariff and the general prosperity the country is enjoying. Stops also were made at Casselton, Tower, Valley City, the home of Gov. White; Dawson, Dickinson and Medora.

PowWow With Chiefs.
At Bismarck the president was introduced to a number of Indian chiefs, some of whom had fought against Custer. He had traded with two of these Indians eighteen or twenty years ago and he instantly recognized them. The chiefs presented an address and a pipe of peace to the president, who had a few words of greeting and thanks for each man.

Ranchmen Greet Him.
The most interesting ceremony of the day was at Medora, where the president at one time owned a ranch and which was his postoffice address sixteen years ago, when he was sheriff of Billings county. Medora is a small place, but the ranchmen from the surrounding country had come into town and they gave the president a truly Western reception. Joe Ferris, who was the president's old foreman, and his brother, S. M. Ferris, met the president at Bismarck and rode with him to Medora.

Picture of Big Family.
While in St. Paul President Roosevelt was presented by Mayor R. A. Smith with a picture of the family of J. P. Rhein of Washington county, Minn., the picture including Mr. and Mrs. Rhein, their nine children, forty-eight grandchildren and two great-grandchildren. All reside within fifty miles of the Rhein homestead.

Mayor Smith was sent the following letter by President Roosevelt:
"Will you congratulate Mr. and Mrs. Rhein for me? I am proud of them and was as pleased as possible with the two pictures of their children and grandchildren. That is the stuff out of which we make good American citizens."

ALLEGES SUPPLIES ARE POOR

Rubber Stampmakers Declare Goods Furnished the Department Are of Inferior Quality and Submit Samples of Pads to Prove Their Assertions.

Washington, April 8.—Another sensational development in the postoffice scandal occurred, when charges of collusion on the part of a bureau chief were filed with Acting Postmaster General Wynne. They are reported by affidavits filed by the Bingham company of Philadelphia, and are made against M. W. A. Lewis, chief of the division of postoffice supplies.

Charges Collusion.
Lewis purchased supplies for post-offices throughout the country, but buys nothing for the department here. The Bingham company charges there is collusion between Lewis and a local dealer. The Philadelphia company makes an affidavit to the effect that no honest firm can secure contracts with the government for rubber stamps, inkling pads and stencils, as they are awarded to a Washington firm, which has furnished inferior goods.

Presents Proof.
A representative of the Philadelphia house appeared at the department armed with a large package of papers containing charges, with samples of the pads the Washington stampmaker furnished. These pads were opened by Mr. Bingham, who showed they were below the grade of goods provided for in the contract. Mr. Bingham said his company had been engaged in the manufacture of goods of this class for three generations, and it had never been able to secure a government contract, notwithstanding repeated efforts. His prices were low.

Ugly Rumors.
The documents presented by Mr. Bingham were sent to the office of Assistant Postmaster General Bristow, who is conducting the investigation into the operations of the ring. Gen. Bristow was out of town, but upon his return he will inquire into this new feature of the scandal. For weeks ugly rumors concerning the conduct of the division of postoffice supplies have been in circulation. An inquiry had already been started, but these definite charges of collusion will cause a more thorough investigation to be made.

Expect Heads to Drop.
Every day a new phase of the operations of the ring comes to the surface, and the indications point stronger than ever to a thorough spring housecleaning in the department, and before many weeks a clean sweep of all suspected officials is expected. Postmaster General Payne will not reach here until April 15, which is about a week later than he was expected. Upon his arrival Mr. Bristow will present an array of startling facts, which, it is said, will impel the postmaster general to set the millstone at work and to keep it in operation until the head of every official who has been found guilty of unlawful acts and criminal extravagances has fallen in the basket.

FIGHTS THE CRACKER TRUST

New Biscuit Company Is Formed and Backed by Packing Interests.

New York, April 8.—The United States Biscuit company, said to be backed by the big beef-packing concerns of the west, including the Armour and Swifts, has been organized, with a capital stock of \$4,500,000, which is to be largely increased later. The new company is to be operated in direct opposition to the National Biscuit Company, commonly known as the "cracker trust," which has been antagonizing the packing interests.

Wants \$1,000,000 Damages.

Boston, April 8.—An attachment amounting to \$1,000,000 has been served on the United States Shoe Machinery company in a suit instituted by Harry E. Cilley of this city in the United States District court. Cilley claims damages for infringement of patent.

France's New Coin.

France is going to have a new coin, a twenty-five centimes piece, or five cents. It will be of nickel, larger than a franc, but smaller than a copper sou, with a smooth edge.

Very Latest Style Easter Hat

A hat that is ever so fine and expensive will not change the looks of the hair, but long, glossy hair will lend attractiveness in most any kind of a hat. A wealth of luxuriant hair attracts more attention and is more admired than raiment, riches or title, and those who can spare a few cents and a few moments each day for a month or two can have hair to their entire satisfaction, for there is now a remedy that will make the hair grow thick, long, glossy and beautiful without changing its natural color or texture. Danderline is the name of this great hair tonic.

TREASURY OFFICIAL RESIGNS

He is Cheered by Both Parties in British House of Commons.

London, April 8.—William Hayes Fisher, M. P., financial secretary of the treasury, announced his resignation in the House of Commons, as a result of his connection as a director with a financial syndicate whose affairs are in the hands of a court. While conscious of his own integrity, Mr. Fisher recognized that the strictures of Justice Buckley rendered him liable to attacks in his official capacity and that he had, therefore, become a source of weakness to the government. Mr. Fisher was sympathetically cheered from both sides of the House. Premier Balfour paid a warm tribute to Mr. Fisher's personal character and official capacity. The Liberal leader, Sir Henry Campbell Bannerman, associated himself with Mr. Balfour's remarks.

SETTLE INDIANA MINE STRIKE

Operators Concede the Employment of Blast Firers and Grant Increase.

Terre Haute, Ind., April 8.—The Indiana miners' convention has accepted the concessions made by the operators. After six days' idleness mining was resumed to-day with work for about all the 10,000 men, as the suspension has created a demand for coal, especially in manufacturing cities. The operators consent to employ men to fire explosives in mines designated by a commission. The operators also concede an increase of wages for 400 journeymen, and the miners yielded their demand for an increase for day labor south of the Baltimore & Ohio Southwestern railroad and on certain coal in the Linton district.

REAR ADMIRAL BELKNAP DIES.

Retired Naval Officer Expires Suddenly from Apoplexy.

Washington, April 8.—A dispatch was received at the navy department from Key West announcing the death of Rear Admiral George E. Belknap, U. S. N., retired. Death resulted from apoplexy. The deceased was detailed for duty in the execution of certain plans proposed by the general board for establishing a naval base. He will be buried at Brookline, Mass.

DUKHOBORS PURCHASE HORSES

Lose Their Old Aversion to Animals and Machinery.

Winnipeg, Man., April 8.—Peter Veregin, the leader of the Dukhobors, has arrived to purchase horses for his countrymen in the Swan River colony. The Dukhobors, according to his story, are losing all their old-time aversion to animals and machinery, and desirous of adopting Canadian customs. Another important reform he reports is that the Dukhobors are entering for homesteads.

Evade Quarantine.

Ann Arbor, Mich., April 8.—Health officers are searching for three students who have slipped smallpox quarantine. Abigail Gue, a student of the University of Michigan from Buena Vista, Mich., and Allen and Robert Ellsworth, brothers, of Wayne, Mich., left their rooms, which are in the same house, to attend classes.

New Suicide Method.

St. Paul, Minn., April 8.—Mrs. Mary Phillips, 27 years old, attempted suicide by swallowing pennies. She took at least half a dozen of them, and, failing to end her life in this way, she drank carbolic acid. She was hurried to the city hospital and will recover. She is hopelessly insane.

PURE FOOD VERDICT IS VOID

Michigan Supreme Court Sets Aside Conviction in Extract Case.

Lansing, Mich., April 8.—The supreme court has set aside the conviction and ordered a new trial in the case of Charles W. Jennings, who was convicted under the state pure food law for selling a compound in imitation of lemon extract. The court makes the important ruling that if articles complained of contained all the ingredients, and in quantities as are prescribed by the pharmacopoeia, which are adopted to use as food and nothing was eliminated except such ingredients as could be dispensed with without injury to the products as a food product there was no violation of the law.

WARNS ARMY AGAINST ALCOHOL

Prince of Saxe-Meiningen Issues Order Attacking Drunkenness.

Berlin, April 8.—The hereditary Prince of Saxe-Meiningen, commander of the Sixth army corps, who issued an order recently advising soldiers to lodge complaints when they were ill-treated, has issued another corps order against drunkenness. He points out to privates the damaging effects of alcohol on the health and usefulness of men and directs the regimental doctors to demonstrate to the soldiers its evil effects, authoritatively and in a kindly manner. About 1,700 instances of drunkenness were punished last year in the Sixth corps, numbering 25,000 men.

DIES ON THE EVE OF ELECTION

Republican Candidate for Mayor of Murphysboro, Ill., Expires.

Murphysboro, Ill., April 8.—William Turk, aged 30 years, Republican candidate for mayor, died last night at St. Andrew's hospital. He was taken ill last Friday and an examination developed appendicitis. An operation was performed by a specialist at once, but his condition did not improve. Mr. Turk was proprietor of the Turk Lumber company, president of the Jackson County Fair association and was a prominent member in Knights of Pythias, Elks, Redmen and Modern Woodmen. He leaves a widow and one child.

HOLD PREACHER FOR BIGAMY

Rev. Frank Boyer Is Under Arrest at Augusta, Ill.

Bloomington, Ill., April 8.—R. L. Fleming, state's attorney of McLean county, with an officer left here for Augusta, Ill., to bring back Rev. Frank Boyer, who is said to be a bigamist. Boyer was taken into custody. His last wife was Miss Gertrude Dennis of Normal. It is alleged that Boyer failed to obtain a divorce from his first wife, who was Miss Emma Greenwalt of Seymour, Ind.

New York, April 8.—The duke and duchess of Manchester sailed on the Deutschland for home, accompanied by their young daughter.

MRS. IDA McDONALD,

Supreme Deputy of the Maccabees of the World.

MR. McDONALD, No. 477 Beaubien Street, Detroit, Mich., is a prominent woman who was greatly benefited by the great woman's medicine, Wine of Cardui. Mrs. McDonald is the supreme deputy of the Maccabees of the World, and one of the most widely known women in the United States. Thousands of women gather to hear her lecture everywhere she goes. The great work she has done for the Maccabees is appreciated by every member of the order. She was so absorbed in her work that she neglected to give her health proper care—failed to take warning that the symptoms of approaching kidney trouble gave her, the shallow complexion and torpid liver. But Wine of Cardui cured her the same as it has cured thousands of others and Mrs. McDonald has written this letter in order that other suffering women may secure from Wine of Cardui the same relief she got from it.

"For four years I suffered with torpid liver until my skin looked yellow and dull. I then found my kidneys were affected and had severe pains across my back, and I felt

Mrs. Ida McDonald.

that I must do something to regain my health. A friend advocated your Wine of Cardui treatment so strongly that I decided to try it, although I had little faith in patent medicines. I am now very thankful that I did so, for within ten days blessed relief came to me, and in less than three months I was cured, and have enjoyed fine health ever since. I know there is nothing better for a sick woman who wishes to enjoy perfect health and am very pleased to give my hearty endorsement."

No suffering woman can afford to ignore such a letter as Mrs. McDonald writes. Her plans and advice have proved valuable in building up one of the greatest women's organizations in the United States and she takes time to give advice which she knows will help you.

Do not delay in securing this medicine. There is nothing to gain and everything to lose by delay. The choice is before you. Will or will you not secure relief now by taking Wine of Cardui? All druggists sell \$1.00 bottles of Wine of Cardui as well as 25c packages of Theodor's Black-Draught.
